

HOW DO DIFFERENT PADS COMPARE IN SIZING ?

TRUE 20.2

Much flatter boot than CCM E5
As a result both overall height
and knee height noticeably lower

BAUER HYPERLITE

Size M similar to 34+1 CCM
Similar boot angle
Slightly shorter overall & lower knee

BAUER ULTRASONIC

Size M similar to 34+1 CCM
Steeper boot angle so nearly 1" taller
*NEW Mach with flatter boot
expected to size like hyperlite

BRIAN'S G-NETIK V

Overall and knee height similar to
CCM as is the boot angle.
*Added pad in boot channel will
cause pad to sit higher on leg

REFERENCE PAD

CCM E-FLEX 5 34 + 1
STOCK PAD

CCM AXIS

Slightly taller in height
Knee sits same as Eflex 5
*NEW Axis 2 sizing expected
to be the same

VAUGHN SLR3

+2 so pad sits 1" taller than CCM
But knee sits similar height
Similar boot angle

VAUGHN V9

+2 so pad sits 1" taller than CCM
BUT knee also sits nearly 1" higher
*33+2 V9 may be more comparable

WARRIOR G5

Similar boot angle
Similar knee height
Overall half-inch taller as stock +1.5"

Stock Thigh Rises

Vaughn +2
Warrior +1.5
CCM +1
Bauer +1
Brian's +1
True +1
